Testimonials

"Incredible!! I have fed all my plants & fruit trees this stuff and BAM! I can't get over how many blooms the plants have & the smell of the gardenia bush is just amazing! Plus, this guy's mission is all about giving back to the community where it's most needed."

— Rachelle Abney

TRUE EARTH FERTILIZERS
#111 Natural Fertilizer

"My mom has vertigo and every now and then I myself will have dizzy spells. It's a major interruption to my schedule and always comes out of nowhere. I carry the black turmeric in my bag and down a dropper full with some water when I start feeling like this (if you have the alcohol based one it'll wake you up!). I also take it regularly for inflammation in my legs and before a long drive."

— Nani

TRUE EARTH FARMACY
Black Turmeric (Curcuma caesia)

"I have used several different CBD oils, but nothing has touched the True Earth CBX formula! It soothes my nerves score bed and keeps me calm throughout the night. It also helps with my anxiety during the day. I can't live without this stuff! I'm so happy I found it!"

— Lynn
